

Life Cycle Management with Rittal Blue e+ S Cooling Units

IMPORTANCE OF EFFECTIVE COOLING

Life Cycle Management of key production assets.
Minimise production downtime caused by

- Excessive Heat
- Harsh environment isolation

Blue e+ S AT A GLANCE

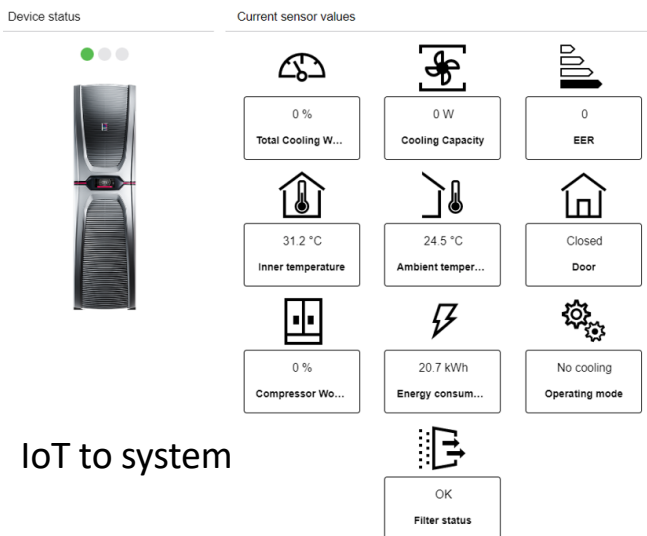

- New hybrid technologies for energy savings
- New generation of refrigerant R-513A.
- New IoT capabilities.
 - NFC
 - Ethernet connections to PLC or PC.
- New Integrated LED color strip.
- Universal Voltage

RITTAL'S COOLING SOLUTIONS

0.3kW – 5.8kW

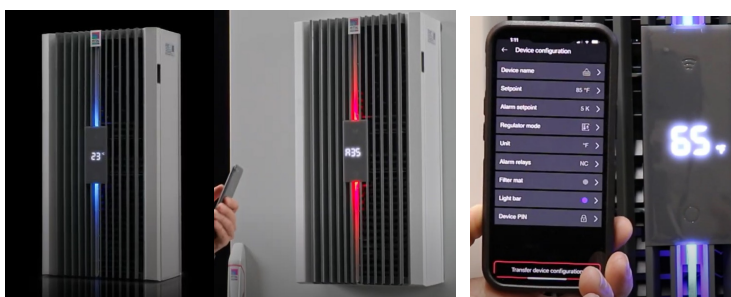

Wall-mount or Roof Mount

LATEST ADDITION :- Blue e+ S

USER BENEFITS

- Upto 75% average energy savings.
- Refrigerants R-513A has 56% lower GWP (Global Warming Potential) than R134a.
- IoT monitoring through direct connection to PLC and end-user system.
- Easy situational awareness with LED color strips.
- 230V to 400V supply
